THE ROLE OF CHEMISTRY IN GLOBAL SECURITY

Join other chemists across the globe to watch industry experts discuss the history of chemical and biological warfare. Get a peek behind-the-scenes at how today's biochemists and government agents work together to counter chemical-based threats.

02/09/16, 7:00 p.m.

The University of North Florida
Science and Engineering Bldg. 50, Room 1102

Presented by the Jacksonville Section of the American Chemical Society
Contact: Josh Melko (josh.melko@unf.edu)
